

Britton TACO

Committed to recycling

As an environmentally conscious supplier, **Britton Taco** is working to assist its customers in the **environmentally friendly disposal** of plastic waste materials, helping the environment and **saving potentially significant waste disposal costs.**

Not only does sending plastic scrap to landfill harm the environment, it is also costly in financial terms. Many companies pay in excess of £50 per tonne to have waste disposed of - in addition to storage and transport costs.

Depending upon the quantity, location, and condition of polythene film waste, we can receive materials at our Winsford site, or alternatively arrange for scrap materials to be collected from customer premises.

This service is usually free of charge, and in some circumstances, we are able to pay for waste polythene collected - further increasing the financial benefit to our customers.

For further information, please contact your usual Britton Taco sales representative, or call our Recycling Manager on 01606 593434.

Established in 1973, the Britton Taco site in Winsford, Cheshire, is one of the largest polyethylene film plants in Europe.

We operate a substantial recycling facility capable of recycling in excess of 10 tonnes of polythene waste per day.

Britton Taco can assist its customers to comply with their environmental responsibilities and significantly reduce disposal costs.

Britton Taco Limited is accredited by the Environment Agency under the Producer Responsibility Obligations (Packaging Waste) Regulations 1997.
